Note

1) There is a provision of Rs 1 25 000/- in the State budget for the year 1941-42 under "30-3 Improvement of Town and Minor Municipalities'

2) Commitments out of the above provision have been already made for the several works shown in the statement appended 'C' It comes to Rs 55 165/-

3) Another statement showing the cases which were ordered to be put up for consideration when the above provision is taken up for distribution for 41-42 is put up 'D' It amounts to another Rs. 18 836/ if all of them are approved This is for kind orders

4) Last year a sum of Rs 2,000/- was placed at the disposal of each of the Deputy Commissioners of Districts, except Mysore and Shimoga who were given a sum of Rs. 3,000/- each for improvements in the Minor Municipalities in the respective Districts It is also for orders if it may be given this year also, as in the previous years

5) The Deputy Commissioners of Districts except Mysore have sent up proposals But in several cases, even the estimates are not ready and information regarding the willingness and the financial ability of the Municipal Council to meet the moiety of the cost is not stated. Hence they have been omitted to be taken into consideration Each of the works will be taken up as andwhen definite proposals are received from the Deputy Commissioners

45) During the current year, Government were pleased to sanction the grants of Rupees two lakhs and Rs one lakh and twenty five thousand for the improvements to Water Supply in towns and for the improvement of towns respectively These grants have been almost fully distributed as noted hereunder and the reserve left under - these is approximately Rs 16,425/- and Rs 553/- which is hardly sufficient to meet the numerous demands of the several Municipalities in the State till the close of this year

46) In accordance with the minute dated 18th November 1941 of the Minister for L S G and P H , definite proposals for additional grants required for specific improvements in the towns were called for from the Deputy Commissioners of Districts and the Director of Public Health on the 26th November 1941 These proposals

proposals have, now, been received from all the Dy Commissioners of Dts except from the Dy Commr , ysore Dt. The Director of Public Health has also submitted a consolidated statement relating to all the Districts including the Mysore Dt The proposals embody the additional grant that may be required both for improvement of water supply in towns and for town improvements for the current year as also for the year 1942-43 The Districtwar statements showing the particulars of the improvement works, the amount of estimated cost, and the amount of the Govt grant required, etc have been compiled and put up for kird perusal

47) According to the demands now received, the additional grants required during the current year would be, as noted below -

District	Water-supply Rs	Town Impt Rs
Bangalore	9,075	22,200
Mysore	-	14,800
Mandya	12,542	27,080
Hassan	6,119	16,555
Shimoga	-	1 5,000
Kadur	800	850
Chitaldrug	-	31,163
Tumkur	-	1,000
Kolar	-	4,000
Total	28,536	1,32,648

48) It is seen therefrom that ~~an~~ a total additional grant of Rs 1,61,184 would be required for taking up the several improvement works including water supply It appears that it may not be possible at this stage of the year - only two months more for the official year to lapse - to undertake, execute and complete the various improvement works in respect of which proposals have been received in addition to those already on hand, which are

in

Additional Town Improvement Grant-
for 1941-42

Serial No

in various stages of progress Most of these works could be easily taken up for execution during the next official year, a few of them only which appear to be really urgent and in respect of which definite proposals have been sent up to Government being taken up during the current year These have already been either perused, approved, or sanctioned They are as follows -

(1) Drainage at Shimoga and housing facilities to the Sweepers & Scavengers of the Shimoga Town Municipality	Rs 15,000
(2) Improving the Karighatta - Church Road at Ganjam	1,470
(3) Under-ground drainage scheme - Davangere Extension	31,163
(4) Chickballapur Drainage Scheme	4,000
Total	51,633

49) All these works are in respect of ~~only~~ improvement of towns only and a grant of Rs 15,000 has since been sanctioned for the first work referred to above, as it was very urgent in view of His Highness' announcement of the grant during February 1941 The additional grant required urgently during the current year would therefore be Rs. 51,640/- (round figures) against the total ~~of~~ grant of - Rs 1,32,648 required during the current year. An additional demand for Rs 51,640 may perhaps be placed at the next Session of the Legislative Council

Against the total amount of Rs 28,536 required for improvement of water supply in towns during the current year, a few really urgent works in the Districts of -- Bangalore, Mandya, Hassan and Kadur may perhaps be taken up for execution out of the reserve of Rs 16,425 available under the Water-supply grant for the current year It is also possible to make some amount available for these works from the balance left under the Kathal Project, as the work has been ordered to be stopped for some time Besides steps is taken at present to get the necessary machinery and the required quantity of pipes etc in the conditions prevailing now due to war In view of these facts it does not appear necessary to place additional

Tumkur	42,000	1,29,400
Kolar	790	12,235
Total	2,42,245	3,63,542

51) Apart from these works, a sum of Rs 51,531 would be required during the next official year for the - anti-malaria engineering operations, the continuance of anti-malaria units and travelling nd other charges of Mr G H Krumbiegel which are noted as hereunder -

		Rs
1	Anti-malaria engineering operations at Koppa Hiriyur, Sakrepatna, Belur & Mudgere, (according to the estimate of the Dr of P H)	42,761

53) The above consolidated note in regard to the additional grants required under Town Improvements and water supply during the current year and the provisions to be made under the said heads for 42-43 are for perusal

55) under water supply, there is a reserve of Rs 16,425/ still left. This would perhaps be sufficient till the end of the official year for reasons mentioned in para 4 & 5 supra and no additional grant need be applied for further, as the Kaithal project of water supply to that town has been ordered to be stopped, large savings may be anticipated under this head

Budget for 1942-43

Sir,

Regarding Town Improvement grants for the year 1941-42

With reference to your letter No L 4432-40/Ml 101-41-14 dated 26th November 1941, calling for proposals for improvements to be carried out in the Town and Minor Municipalities, with full particulars as to the total cost of such works etc I have the honour to note below the several works for which grants are required:-

1 Drainage work in front of the Middle School at Birur Town

This work, at an estimated cost of ₹ 2100/-, was taken up by the Executive Engineer, Kadur Division Half the cost of the work has been paid by the Municipal Council Owing to the slender finances of the Municipality it was requested that a grant of ₹ 1050/- may be sanctioned Government directed in their letter dated 24th October 1941 that the request may be renewed early next year The work is reported to have been completed and the Executive Engineer has been urging forthe payment of the balance of ₹ 1050/- It is, therefore, requested that a Government grant of ₹ 1050/- may kindly be sanctioned for this work

3961

2 Purchase of an Engine for the Mudigere Water works

A sum of ₹ 2000/- has been allotted for this purpose, out of the special grant of two lakhs announced by His Highness the Maharaja The Sanitary Engineer, Bureau of

Bureau of Sanitary Engineering, has sent an estimate for 2800/-. The Minor Municipal Council, Mudigere who were asked to pay the balance of Rs 800/- have resolved that the amount may be appropriated out of the grant allotted for the construction of a Bus-Stand at the place As the construction of a bus-stand is also necessary, I am of opinion that it should also be taken up immediately The financial position of the Municipality is not sound The Municipal Council have to repay the loan of Rs 7500/- raised for the drainage scheme They are also taking action to layout an extension I, therefore, request that the balance of the amount required viz , 800/- for the purchase of the water works engine may kindly be granted out of the reserve under the Town Improvement Funds The Municipal Council will be asked to pay their quota of the cost for the construction of the bus-stand

3 Laying out of a park at Ajjampura

The Municipal Council, Ajjampura have proposed to take up this work An estimate has been prepared for Rs 550/- The Municipal Council have agreed to pay their quota of the total cost of the work A sum of Rs 275/- may kindly be sanctioned out of the Town Improvement Funds.

I have the honour to be

Subject — Re Town Improvement grants for the year 1941-42

Adverting to G O NO L 3037-31/ L 101-41-7 dated 20th October 1941 sanctioning grants to the several town and minor municipalities in the State I have the honour to state that against a grant of 34675/- applied for by this District a sum of 4548/- only has been sanctioned to the Seringapatam Town Municipality There are three Town and minor Municipalities in the District and the financial condition of no municipality except that of Nagamangala can be said to be satisfactory They have been finding it extremely difficult to make both ends meet, and as such they can hardly be expected to take up any improvement work worth mentioning without munificient help from Government in the shape of Town Improvement grants The Towns of Mandya Nagamangala Malavalli and Pandavapura have been to some extent affected by the development of Irwin Canal irrigation and particularly Pandavapura and Nagamangala Towns are in need of urgent improvement works

The Government has graciously sanctioned a sum of 2000/ during the year 1940-41 under this head for distribution among the minor municipalities of this District but during the current year allotment has been sanctioned to this District as it is an municipality in this District except Nagamangala can take up any improvement works during the current year Further they feel that no kind of encouragement is given as to the Town, and they have been neglected

In the circumstances explained above I request you kindly to obtain the sanction of Government for an - auditional grant of atleast Rs 5000/- out of the reserve for distribution among the minor municipalities of this district

Subject - Town Improvement Grant for the year 1941-1942

Adverting to your letter No L 4432-40/M1 101-41-14 dated 26th November 1941, calling for certain particulars on the above subject I have the honor to state as follows -

A recommendation was made in my letter of Even No dated 10-11-41 for additional grant of of Rs 5000/- for being distributed among the Minor unicipalities which are not in a position to provide for improvement works owing to their slender resources

Mandya Town Municipality
French Rocks Minor Municipality
Belakavadi Minor Municipality

In this connection I wish to state that the marginally noted Municipalities have proposed to take up the works noted in the enclosed statements and are willing to provide their quota for the same I recommend that the request for grants may kindly be considered favourably

It may not be out of place to bring to the kind notice of Government that in this District the marginally noted

Maddur
Melkote
Nagamangala
Krishnarajpet
Belakavadi

Municipalities are not in a position to provide funds out of their income for any improvement works though certain improvements are quite necessary The requests of these Municipalities deserve sympathetic consideration

I mention in the margin the improvements that are to be urgently effected in the Municipalities and for which plans and estimates have been prepared The Municipal Councils have requested that out-right grants may kindly be sanctioned for these works as they are not in a position to provide for these works as they are not in a position to provide funds out of their income The income of these three Municipalities is limited and hardly any provision could be made for improvement works As the works they propose to take up are of very urgent nature I recommend that an out-right grant of Rs 3922/- or Rs 4000/- may kindly be sanctioned to Melkote Nagamangala and Belakavadi Municipalities

---

1 Shifting of the existing pump house in Melkote - Plans and estimates have been prepared by the Sanitary Engineer The cost comes to Rs 742/-
2 Formation of a road from Mandya Road up to Kapini Bagilu in Nagarangala Estimated cost Rs 3180/- (plans and estimates have been prepared)
3 Drainage work in Belakavadi Plans and estimates have been prepared and the Municipal Council pray for a grant of Rs 300/- against the estimate for Rs 800/-

---

In the case of Maddur unicipality I wish to state that the drainage scheme already started has to be completedand the Town Water Supply Scheme has to be taken up early These questions are being dealt with separately and recommendations will be submitted due course

In the case of Malavalli the question of granting a loan to the Municipality for formation of an extension is under consideration

I request that Government may kindly be moved to sanction grants for Mandya French Rocks Melkote, Belakavadi

Nagamangala Municipalities for the works mentioned in the statement enclosed
